
INTRODUCING STUDENT ACCELERATOR™

Developed by Collaborative Solutions, the Student Accelerator provides you with the strategy and tools to make your Workday Student implementation a success. Research shows that without an integrated change management strategy 60-70% projects fail, don't meet their objectives, or have a delayed go live. As higher ed costs continue to rise and funding shrinks, you cannot afford to make that mistake.

With the Student Accelerator, your project team is equipped with the foundations of change management necessary for your organization to accept the changes that lie ahead. Along with a sound training approach, your users will be confident in executing their Student Recruiting and Admissions business process functions on day one.

OUR OFFERING INCLUDES:

CHANGE MANAGEMENT APPROACH & COMMUNICATIONS PLAN

- » Addresses why change management is essential to achieving your project's objectives and your role in navigating the change. Also included is a plan for communication activities with details for messaging, audience, delivery methods, and the timing of each event.

FACILITATOR GUIDES, JOB AIDS & ACTIVITIES

- » Contains learning objectives and detailed instructor notes. Concepts are complemented with job aids that contain step-by-step instructions and activities that provide hands-on practice.

TRAINING NEEDS ASSESSMENT & CURRICULUM PLAN

- » Provides a training needs inventory for your organization and the roles involved in key business processes. Sample curriculum plans are provided with suggested delivery methods to help your training team build a training solution that meet the needs of your user communities.

TRAIN-THE-TRAINER PACKAGE

- » Prepares your trainers with strategies to engage participants, and contains instructions on how to use the training materials, a trainer skills assessment, a delivery checklist, and a sample training survey.

MAKE AN APPOINTMENT:

Contact our Higher Education Portfolio Managers to discuss a Workday Student Change Management solution that is right for you. We can guide you through the process or partner with you to tailor the approach and develop custom training products to transform how you and your staff perform Workday Student functions.
