

# STRATEGIC ADOPTION PLANNING

Develop and document your road to continuous improvement within Workday.

With the pace at which innovation changes, understanding your organization's goals and prioritizing them can be a nightmare. When will new functionality arrive and how does it fit into your timeline and resources? What happens if you need to re-prioritize? What is the shortest path to delivering greater value to your organization? By partnering with Collaborative Solutions' Strategy team, this process can be streamlined and tracked within Workday.

## HOW DO YOU DESIGN A ROADMAP THAT IS TRULY USEFUL AND CONTINUOUSLY RELEVANT?

Collaborative Solutions' Strategic Adoption Planning offerings combine our consulting services with Workday's Adoption Planning functionality. We meet you where you are – whether you need to align your organizational initiatives to your technology strategy or simply need to make sense of how to tackle your Workday backlog.

Using our deep experience across implementations, release and enhancement management, and organizational transformation, our team helps organize your priorities and options, planning a road forward that continues to position Workday as a key element of your organizational success.

Depending on your focus, our support can include:

Alignment of broad organizational initiatives

Deep tactical reviews of your Workday plan

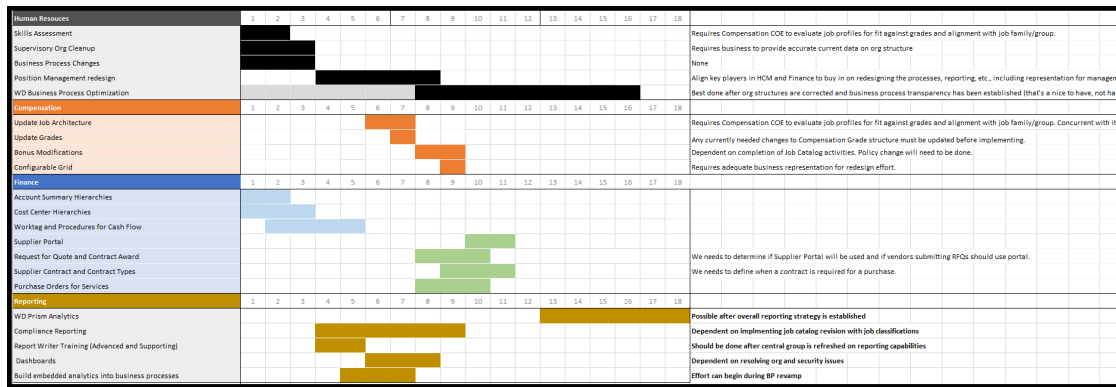

Development of goals and success measures to establish prioritization

Plan functional dependencies of your Workday "to do" list

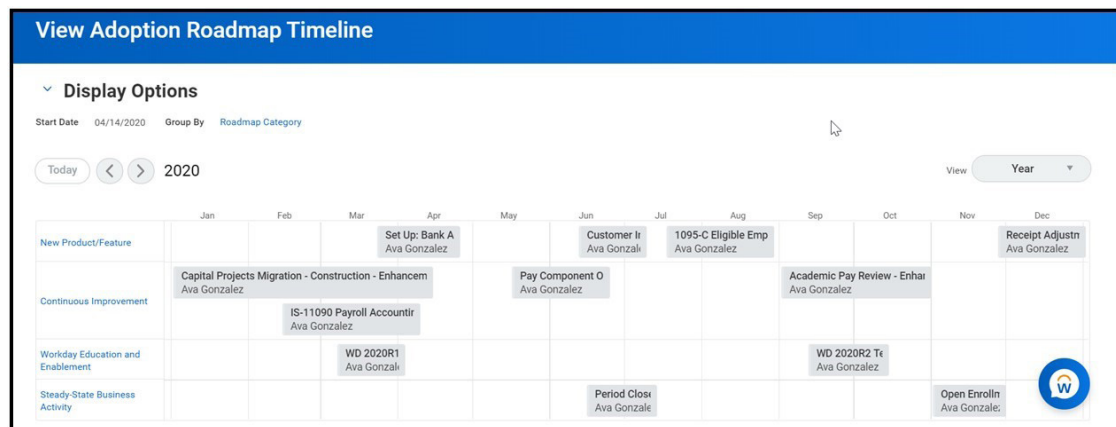

Once your plan is established, we will deploy Workday's Adoption Planning dashboard in your tenant to record and maintain your plan for easy review and management. Your organization will also stay on track through regular reviews with our team, to ensure a relevant and up-to-date roadmap.

## BEFORE: SINGLE ADOPTION ROADMAP DELIVERABLE

*Is your roadmap obsolete the day after you finalize it? Or sitting forgotten about on a hard drive somewhere?*

## AFTER: EXPANDED ADOPTION ROADMAP DELIVERABLE

*With Workday Adoption Planning, your plan stays top of mind, increasing awareness and effective decision-making in your organization.*
