

# ACCELERATORS

## Aligning Experience with Innovation to Increase ROI from Your Global Finance and HR Transformation

### YOUR CLOUD TRANSFORMATION ISN'T A DESTINATION IT'S YOUR UNIQUE JOURNEY

The cloud is ubiquitous but how to get there and achieve long-term ROI can be different for every organization. You need a partner who can help you navigate from up front strategy and alignment through deployment and continuous improvement. Think of us as an extension of your team: your trusted advisor, strategy expert, change champion, and expert on-call.

### LET US MAXIMIZE YOUR TRANSFORMATION SUCCESS AND ROI

At Collaborative Solutions, we offer an innovative suite of Accelerators built from over 600 global customer engagements to maximize your Finance, HR, and Student transformation. No matter where you are on your transformation journey, you need a partner to leverage the right innovations to maximize value to your organization. Our proprietary Accelerators include both innovative tools and services, from technical integration and data conversion tools to Strategy Implementation Planning and Organizational Change & Training services. We work together with you, to transform, optimize, and drive your business forward.

### RAPIDLY INCREASE SPEED TO VALUE, FLEXIBILITY, AND AGILITY

Collaborative's Accelerators layer industry best practices, integration and data conversion tools, reporting templates, testing procedures, and project plans across all deployment stages, to increase speed-to-value, flexibility, and agility. Our Accelerated Cloud Deployment Centers, located in Tampa, Florida, and Manila, Philippines, house a large team of experienced integrations developers that provide our customers with an immediate ability to scale, increase efficiencies by jumpstarting integrations using our virtual library of thousands of templates and assets, as well as reduce integration costs, delivery time, and testing efforts.

### DEVELOP PERSONALIZED SOLUTIONS TO MEET YOUR UNIQUE BUSINESS NEEDS

Your transformation journey isn't one size fits all. With that in mind, we work with you to develop personalized solutions meet your strategic objectives. Take advantage of the tools and services that you need and receive strategic guidance along the way.

## ENHANCE DATA-DRIVEN DECISION-MAKING

Making data-driven decisions is a key component in elevating the success of your organization. Collaborative Solutions has developed convenient technical tools, such as our Advanced Report Dashboards & Analytics, IMPACT Tool, MapIt Tool, and Enhanced Data Conversion Tools, to make sense of your ever-growing data. Additionally, these tools help to decrease the overall work effort in standard deployments, enabling you to focus on the business change to truly transform your organization. These Accelerators allow for better control and insight into your data, enhancing strategic decision-making and providing deeper insight into your business.

### DATA MIGRATION, SIMPLIFIED WITH DAYTONA

*Daytona is an Extraction, Transformation and Loading (ETL) tool built by Collaborative Solutions to transfer data from legacy systems into Workday. It leverages Collaborative's extensive experience with Workday data conversion to improve upon every aspect of the ETL process, giving stakeholders more time to focus on other initiatives. With Daytona, Collaborative has created a data migration process that is reliable, easier for our clients, and delivers industry-leading results.*

## CLEAR PATH FORWARD WITH ALIGNMENT AND ADOPTION

Ensuring the right people have the information needed to make change as well as the right tools to help drive alignment and adoption are critical components to realizing the value of any transformation. Collaborative has developed several tools, templates, and processes to ensure comprehensive communication to drive the most effective decision-making for your organization. Collaborative Solutions will expertly guide you with our Strategic Implementation Planning

*“Workday and Collaborative Solutions have been tremendous partners throughout this journey from disparate legacy systems to state of the art technology,”*
