

Expand Your Reach with our Global Shared Services Practice

Maintaining your systems can become a headache when you have limited resources to oversee operations and competing projects demanding your team's attention. In addition to our existing Philippines presence, Collaborative expanded our global footprint into India, which broadens our Workday capabilities, drives digital transformation, and allows us to become more globally integrated with one unified Global Shared Services practice.

Collaborative's Global Delivery Center is the optimal combination of post-implementation advisory and consulting services and end-to-end strategies with resources readily available in an expanded time zone coverage.

By opting into our global support model, you'll gain access to 35% more consultants available to you, so your business needs can be addressed quicker, and your business objectives met faster. Our Global Delivery Center effectively enables organizations to maximize the value of their Workday investment while reducing the overall cost and delivery time of the services provided.

“ I enjoy working in connection with my Collaborative team, their knowledge of Workday really helps in making valuable decisions for our company. ” – Keanna White, Sr HR System Analyst, Mastercard

Benefits of Leveraging Our Global Delivery Center

- **Flexible Support Structure:** Global Delivery Consultants provide expanded time zone coverage meaning our experts are readily available to support your systems
- **Cost Savings:** Working with our Global Delivery Center provides expanded coverage with additional cost savings
- **Reduced Downtime:** More availability of resources allows Collaborative's consultants to respond quickly and resolve issues faster
- **Certified Expertise:** Collaborative is one of Workday's longest-tenured partners and has over 750+ Workday certified consultants across 125+ countries.
