

# Finance, HR, & Student Transformation for Higher Education

## Delivering a Modern Student Experience

Higher education institutions in the modern world face intense and rapidly increasing challenges, forcing institutions to rethink plans and find ways to improve processes. Issues today include growing financial pressure, COVID impacts on workforce management and student location, changes in enrollment, increasing competition, and higher student expectations. The traditional economic models that universities have relied on in the past are no longer feasible, and institutions must be able to adapt while keeping both staff and students satisfied.

To improve business models, institutions can find value in harnessing new and innovative technologies such as those found through digital transformation. Using cloud solutions such as Workday for higher education will drive student success while reducing costs, helping universities rise to the challenge by remaining agile and adaptable.

Working with a partner that knows higher education as intimately as Collaborative Solutions provides us with many advantages. As we make progress with technical requirements, Collaborative is also a reliable and informed source of best practices as we contemporize antiquated business processes and policies. **We have never questioned our partner choice during our Workday Student implementation!**

*Ray McCandless, VP of Information Technology  
University of Findlay*

## The Collaborative Difference

Collaborative Solutions helps leading higher education institutions, including community colleges, private colleges and universities, state universities and systems, online schools, R1 research institutions, and Ivy League schools, leverage Workday to solve the industry's biggest challenges.

Collaborative's higher education practice maintains the following differentiators:

- A track record of 100% deployment success for higher education.
- Talented, experienced consultants who have developed an extensive portfolio of higher education solutions for human capital management, financial management, student, talent development, recruiting, change management, and post-production services.

- Our reporting and analytics prepare organizations for providing data across their stakeholder groups, including students/parent, faculty, employees, alumni, and accreditation agencies.
- Our integration strategy and implementation have reduced internal IT resource constraints and improved upstream and downstream data sharing. Insight into critical financial indicators allow organizations to plan and respond to changing market dynamics and expectations strategically.
- Our dedicated Student practice enables schools to have a holistic approach across students, faculty, and staff.
- Collaborative leverages industry best practices to help our clients achieve outstanding practice in the areas of HR, Finance, and Student.
