# DATA-CENTRIC AUTONOMOUS TESTING WITH COLLABORATIVE SOLUTIONS AND TURNKEY
Delivering the Power of Data-Centric Autonomous Testing to the Workday Ecosystem

Collaborative Solutions, A Cognizant Company, and TurnKey Solutions, a Workday Connect Partner, have partnered together to provide Workday users a new generation of automated testing, production data validation, and production readiness management technology called RainierAEV™ (Autonomous Enterprise Validation).

This new generation of technology further enhances the capabilities of automated testing and brings many new and powerful features to the realm of production readiness management.

KEY FEATURES AND BENEFITS

Accelerators

- Pre-built tests and Workday Data Mining
- Turnkey securely test Real Production Data
- Uses Real Data

No Code & Machine Learning

- Plain-English drag and drop commands
- Automatically captures HTML elements of application
  - Analyzes data to maximize efficiency
  - Reusable tests built within minutes

Early Adopter Benefits

Security Group

- Mines Security Group assignments by Worker
- Compares the current security footing to prior configurations and baselines
- Includes scanning of Separations of Duties violations

Autonomous Test Execution

- Checks for Workday updates
- Mining and analyzing production data
- Updating test data sets
- Running reports and even firing up and shutting down testing VDIs

COLLABORATIVE
SOLUTIONS
A **Cognizant** Company

Additionally, automated enterprise validation delivers the following capabilities:

- Mines actual production transactions

- Applies analytics and visualizations

- Recommends test combinations and test content proactively, customizable based on risk profile

- Executes autonomously

- Identifies and helps fix bad production data - the source of over 85% of all production support tickets for the average Workday environment

- Tests Workday deployment and post-go live data

- Removes human error and delivers greater accuracy

- Enables regression testing

TESTING-AS-A-SERVICE (TAAS) EARLY ADOPTER PROGRAM

Collaborative and TurnKey offer three TaaS solutions to meet the needs of all Workday clients, both large and small organizations. Each TaaS package contains technology and services matched to each clients' unique environment and budget.

For a limited-time, organizations currently leveraging Workday are invited to register for our TaaS Early Adopter Program (EAP). Successful registrants* in the EAP can sign up for he Bronze, Silver, or Gold TaaS package at a discounted rate.

This offer is only valid for the first 12 consecutive months following the TaaS subscription initiation. After which, the regular TaaS package pricing will apply. To be eligible for the EAP, organizations cannot be an existing RainierAEV™ subscriber and must sign a new TaaS package subscription with Collaborative Solutions on or before December 15, 2021. Please inquire with your Collaborative Solutions' Representative for more information on the program requirements and offers. Total subscribers under this program are limited and the program may be withdrawn at any time

For more information about our TaaS packages or the TaaS Early Adopter Program, contact us today at alliance@collaborativesolutions.com.
